

SMART MADNESS

How to: Install smart fortwo 453 Front Grill Accent Piece w/ Emblem

Carefully remove the smart badge together with the base.

Place the new grill so that the small ears in the fourth hole from the bottom, which are on the left and right edges, hook from the bottom up.

Screw the new grill with the four self-tapping screws.

Put silicone on the middle piece in order to stick the logo on it.

Place the logo in the middle of the grill. Be sure that the logo touches enough silicone.

Secure the logo with paper adhesive tape and leave it on for 24 hours in order for the silicone to harden.

After 24 hours, you may remove the paper adhesive tape.
